A successful imprint depends on good quality artwork. Please keep in mind that we are Silk Screening by hand on felt fabric. By nature this surface is uneven or fuzzy. Artwork can be a design, logo, text or a combination of text and drawing. Artwork must be "Line Art" in black & white "Camera-Ready". Simple and clean type styles work best.

Photographic images or artwork with halftones or grayscale will not work. Small print, tag lines and small symbols (@, °, ©) will not translate cleanly. Unacceptable artwork includes: faxes, photocopies and business cards. Images downloaded from an internet web site are not acceptable. Supplied artwork that will not produce quality printing will not be used and can result in delays shipping your order.
